# First French-German Conference on *Mathematical Image Analysis 2014* **FGMIA'14**

## Announcement

This is the first edition of the French-German Mathematical Image Analysis conference that will be held in Paris in January 2014. It is organized by the French GDR MIA France and the German GAMM Activity Group MSIP. The scientific program includes invited lectures at the interface between applied mathematics (PDE's, Statistics, Sparsity, Variational methods, Inverse Problems, Optimization, Geometrical modeling, etc.) and new developments in various areas of imaging sciences, computer vision and high-dimensional data processing.
